FEATURES

IT'S HEAR!

NEW! THE SPEAKER THEY SAID "CANT'T BE MADE"
You won't believe this! WOW!
Top Extra Highest Fidelity!
Unprecedented! Superb! Unexcelled! Amazing!
Unerring! Unidirectional!
Unnatural! Customized! WOW!

SPECIFICATIONS

Frequency Response: DC to middle of Channel 5
± 3 inches (See Fig. 39.)
NRA Sensitivity Rating: 92.6°
Free-Space Cone Resonance: Huh?
Power Handling Capacity: 110-220V 25 cycle
AC-DC 3 phase
Critical Damping Factor:
In an infinite Baffle: .001
In recommended orange crate: WOW!
Distortion: Don't mention that word
Magnet Weight: 3 tons
Size: 5'/4" wide x 17" narrow x 13 1/16" high x
5/7 short
Mounting: 13 miscellaneous size holes randomly
spaced at uneven intervals in a haphazard way
Net Weight: 73 tons
Shipping Weight: 48 tons
Price: $7, 920* Audiopill Net, F.O.B. your
nearest tar pit. Comes completely unassembled in three box cars

Mr. Exford N., Horse Cave, Ky.
"Send me another—Imy canaries love it—it's for the birds!"

Miss Brunhilde S., Horse Cave, Ky.
"This thing scares me!"

Mr. Clyde T., Horse Cave, Ky.
"I'd send it back, but the postmaster won't touch it."

Mr. Wong Wong Afo, Horse Cave, Ky.
"中国西部在哪里!

Fig. 5 — Actual Testimonials from Satisfactory Customers

Fig. 3 — Frequency Response at 791-watt Level

*Zone 2 includes: West Texas
INSTALLATION

If you are left handed, start with step "f" and reverse procedure.

a. Connect the 300-ohm twin-lead from the UHF Antenna to the terminals marked VHF ANT on the rear of the chassis.

b. Connect a short length of 300-ohm twin-lead between the terminals marked VHF REC on the rear of the front chassis and the UHF antenna terminals marked AFC on the front of the rear chassis.

c. Connect the 300-ohm lead from the UHF antenna to the terminals marked WOW ANT on the side of the front chassis.

d. Connect a short length of 300-ohm twin-lead between the terminals marked VHF REC on the front of the side chassis.

e. Connect a short length of 300-ohm twin-lead between the terminals marked TVREC on the side of the rear chassis and the UHF antenna terminals marked REC ANT on the receiver chassis.

f. Connect the VHF antenna to the terminals marked FM ANT on the rear of the rear chassis.

NOTE: If a short length of 300-ohm twin-lead is not available, use two short lengths of 150-ohm twin-lead, or cut a long length of 600-ohm twin-lead in half. If more than one UHF station is to be received, the automatic on-off switch may still be used as outlined above under Automatic "Operation." If this feature is not desired, the front panel on-off switch may be used and the AC receptacle on the rear chassis disregarded; in this case, disconnect a short length of 300-ohm twin-lead.

When connecting interconnected connectors, take care to connect the connected connecting connectors to the unconnected connections, interconnecting the disconnected connectors with a short length of 300-ohm twin-lead. Otherwise, cross-strapping of the transmagnifier will cause interposition of the contracoustic control. WOW!

CAUTION NOTES

1. Do not operate this speaker within 200 feet of Aardvarks and 3-toed Sloths as this thing will cause untold agony and immediate disintegration to the aforementioned above.
2. It is imperative that all inputs and outputs are grounded so that output is reduced to the doorstep of pain when used outdoors.
3. Close cover before striking.
4. N.B. Unless instructions are carefully followed with utmost caution and circumspection, shock waves and turbulent buffeting may be experienced and the darn thing won't work.

ACCESSORIES

Model BRAK-1, 75-ton derrick. Dainty and inconspicuous for quick, easy mobility when moving unit for dusting, relocating, mobile operation. Audipill Net (with steam engine)........ 57,907
Model BRAAK-1. Furnishing kit. For interior of packing crate. Use this handy little accessory to convert the SP13.5TRBODK packing crate to an additional room for your home. Comes in Battered Blonde, Weather-beaten Mahogany, and Box Car Red. Audipill Net...................... 5790.70
